Workshop Objective

Develop a five-year plan for leveraging community resources to systematically and continually improve one or more 3-D seismic velocity models for the San Francisco Bay Area and surrounding region for use in seismic hazard assessment.

Special thanks to:

Logistics Susan Garcia, Shane Detweiler, Scott Haefner, and Aaron Stanley

Funding USGS Earthquake Science Center and PG&E

Overview of Workshop

Wed	Thu
Introduction	Session V: Frontiers
Session I: Current	Breakout II: Community
Lunch	Lunch + Lecture
Session II: Related	Breakout II (cont.)
Session III: Easy Steps	Wrap-up
Breakout I: Use Cases	
Session IV: Access
